Universidad del Desarrollo does not have student residences, nor does it offer accommodation services to foreign students. However, we provide information for students so they can make the best decision regarding their housing situation during their exchange period. The International Relations Office created the following brochure with different accommodation options that do not depend on the University, but could serve as a guide.

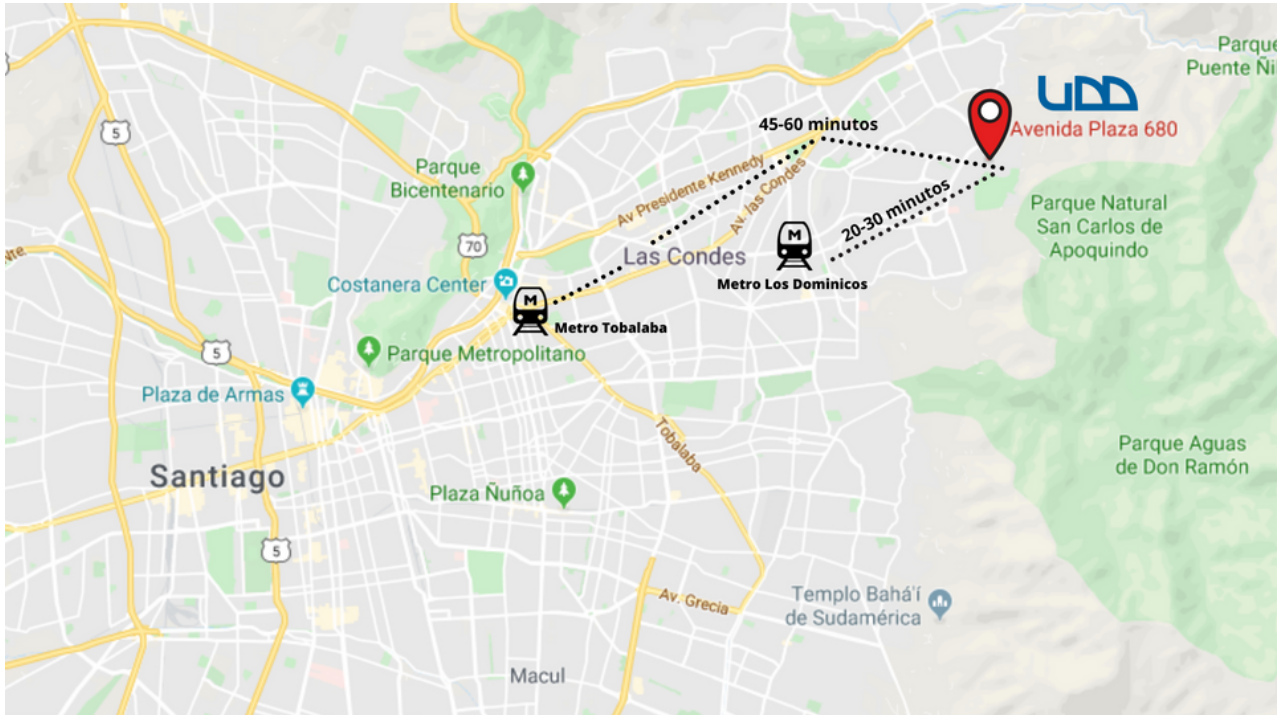

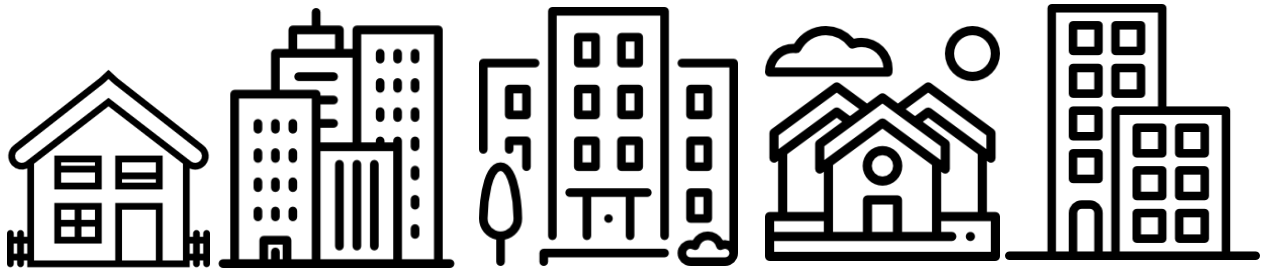

We would like to leave some tips so you can choose your residence in the best way:

- 1.** Always have a backup of what is offered by the tenant, either by mail or through a lease.
- 2.** Be clear about what services the rental value includes (wifi, food, electricity, water, etc.).
- 3.** Consider public transportation to get to university or places of interest.
- 4.** If you are a foreigner, you can check if they have previously received students from other countries and if they speak your language in case of an emergency.

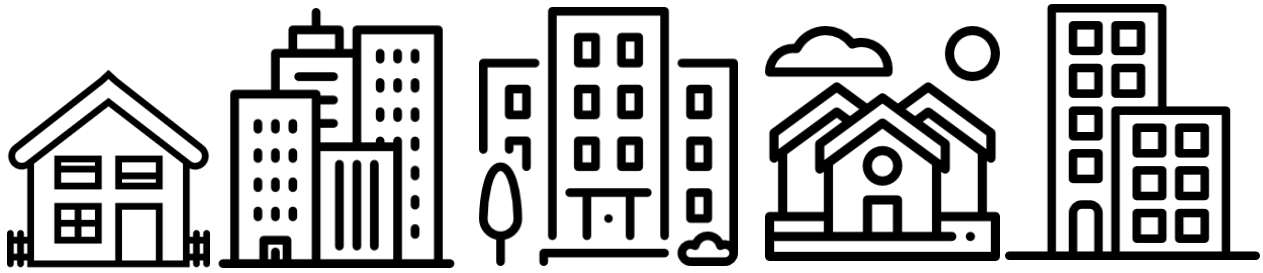

It is very important for us that international students live in a safe, pleasant place and that meets their expectations and resources. It is important to keep in mind that UDD is located in the community of Las Condes, which is why we recommend living in the closest neighborhoods that are Las Condes, Vitacura and Providencia (marked in orange on the map below), preferably near a Metro station.

Metro Los Dominicos is the closest metro station to UDD, from this station there are University buses during the morning and evening, and public transportation buses. It is located in Las Condes, on average it is a 20-30 minute commute to UDD.

Metro Tobalaba, is located in Providencia and within the city it is a really central location, on average the commute is 45-60 minutes away from UDD.
